WDPA working session

Data packs on USB sticks and printed maps

Data pack includes current WDPA data:
- Excel spreadsheets
- Shapefiles

WDPA ID links the datasets and printed maps

Country datasets can also be viewed at
www.protectedplanet.net

Things to consider in groups

- Are the boundaries correct?
- Could the points be replaced with boundaries?
- Are any protected areas missing? Should any be removed?
- Feel free to draw on the maps! Both existing and proposed protected areas and conserved areas.

Descriptive info (excel)
- Is the descriptive information correct?
- Could any of the fields currently 'Not Reported' be completed?

- How can the data be updated? Who is responsible for this?
- Have any of the areas had management effectiveness assessments? What year, and what method?
